

JACKRABBIT-Biography

It was back in year 1991, under Northern lights, in Finland, a rockband called JACKRABBIT came to see the dawn of a new day.

There was four young men, in their twenties, sharing the same vision and musical tastes, likes of BluesRock, SouthernRock, HardRock...70's stuff.....when the music was real...

Rehearsing on daily basis, determined to make it work, few months later, in June of -92, JACKRABBIT played their first-ever gig in a dirty little bar called "The 8 Ball" in their hometown Pori, Finland.

From that day on, JACKRABBIT has been rockin' around the Finnish nation, making themselves STILL proud in what they do!!!!
